Judging rubrics and flow: LEED 26 system compared with your sources

All nine awards as the LEED 26 app scores them, side by side with the rubrics and notes you sent. Yellow cells and “Different” or “Decide” chips mark where they disagree. Prepared 14 November 2026.

A. The Competition
The nine categories, places and marks (Appendix B, Components B, C, D).

B. BIT21603 Final Assessment
Component B stall, C pitch and D video rubrics (WhatsApp screenshots from Dr Munie).

C. LEED 2025 judging guideline
Stall competition rubric 1 to 5, video and stall judging steps.

D. Dr Munie’s notes
Customers only like or not, for People Choice. Last stall criterion is for the class only.

E. 2024 results (KK 3.0)
Video marketing out of 25, jury only. Pitch out of 15.

1. The nine awards at a glance

Same the system matches your sources **Close** same result, different detail **Different** the system does something your sources don’t **Decide** your sources disagree with each other

#	Award	Decided by	System marks	Your sources		What differs
1	**Outstanding Stall** 3 places	Overall total of the five stall elements Jury + customers	**50**	**50 (overall total of i to iv)**	**Close**	Same total. The system makes 50 from 25 jury marks (five elements × 5) plus 25 customer marks (the same five elements, rated by visitors with stars). The Competition only says “overall total” and “evaluated by judges and customers”; check that this split is what the committee means.
2	**Clean and Charming Stall** 3 places	Place element Jury + customers	**10 (5 jury + 5 customers)**	**Jury, 5 marks**	**Different**	The Competition gives this award jury marks only. The system adds the customers’ stars for Place, so it is out of 10. The wording of the Place rubric also differs: see D1.
3	**Brilliant Stall Promotions** 3 places	Promotion element Jury + customers	**10 (5 jury + 5 customers)**	**Jury, 5 marks**	**Different**	Same as above: jury only in The Competition, half jury and half customers in the system.
4	**Hottest Product** 3 places	Product and Price elements Jury + customers	**20 (10 jury + 10 customers)**	**Jury, 10 marks**	**Different**	Same split question. Product and Price wording matches both sources.
5	**Superb Customer Service** 3 places	Customer Service element Jury + customers	**10 (5 jury + 5 customers)**	**Jury, 5 marks**	**Decide**	Dr Munie’s note says the last stall criterion (Customer Service) is for the class only, not the competition, but The Competition still lists this award. The system’s wording is a placeholder: see D2.
6	**Impressive Video Marketing** 3 places	Five video criteria Jury only	**25**	**Jury only, 25 marks**	**Same**	Matches BIT21603 Component D word for word, and the 2024 results sheet (jury marks out of 25). Up to 3 videos per group, one set of marks: see D6.

#	Award	Decided by	System marks	Your sources		What differs
7	**Best Business Pitch with Innovation Element** 3 places	Three pitch criteria, UN SDG 8 Jury only	**15**	**Jury only, 15 marks**	Same	Matches BIT21603 Component C word for word, and the 2024 pitch sheet (marks out of 15). The video length differs: see D5.
8	**Most Popular & Viral Video Marketing** 1 winner	Likes + shares on social media Committee enters counts	**Likes + shares**	**Likes and shares in social media**	Same	The committee types each group's likes and shares into the admin console; the highest total wins.
9	**People Choice Award** 1 winner	Most likes from visitors Visitors	**Most likes**	**Most votes from customers**	Same	Visitors tap "I like it" or "Not for me", once per person per stall. Most likes wins; "Not for me" does not subtract. Matches Dr Munie's note ("kalau ramai suka dia menang").

2. The judging flow

1 Before the carnival

Committee
Adds stall teams and judges, allocates each judge to their stalls and awards, opens the score sheets.

Stall teams
Register, pay RM40 and RM70, add the pitch video (YouTube) and up to 3 promo videos.

2 Judging day

Judges: videos
Open Judging, pick Video Marketing or Business Pitch, play the links on each allocated stall's sheet and score every criterion 0 to 5. Sheets save on the phone if the signal drops.

Judges: stalls
Walk to the stall (list, map or the QR at the stall), taste the sample, score Product, Price, Place, Promotion and Customer Service 0 to 5.

Visitors
Sign in with UTHM, tap I like it or Not for me (People Choice) and rate the five elements with stars (customer half of the stall awards).

Committee
Watches Judge progress, chases missing sheets, types in each group's social media likes and shares.

3 Results

System
Works out every ranking live (see How scores are worked out).

Committee
Checks Stall reports, downloads the Excel with every mark, then publishes. Winners appear on the Results page for the prize giving, 10 December, 2:30 pm.

How scores are worked out

Levels to marks
Each criterion is scored 0 to 5. Marks = level × (criterion marks ÷ 5). A 5-mark criterion at level 4 gives 4 marks.

Several judges
A stall's result on a sheet is the average of its judges' totals, so a stall gains or loses nothing from how many judges reached it.

Stall element awards
Jury part = the judges' average marks for that element. Customer part = visitors' average stars ÷ 5 × the same marks. Award total = jury + customers.

Outstanding Stall
All five elements: 25 jury + 25 customer marks = 50.

Video Marketing, Business Pitch
Jury only: 5 criteria × 5 = 25, and 3 criteria × 5 = 15.

Viral video, People Choice, ties
Viral: likes + shares, highest wins. People Choice: most likes. Equal totals share the same place.

Which sheet feeds which award

Award	Product	Price	Place	Promotion	Customer Service	Visitors' stars	Other
Outstanding Stall	✓	✓	✓	✓	✓	✓	
Clean and Charming Stall			✓			✓	
Brilliant Stall Promotions				✓		✓	

Award	Product	Price	Place	Promotion	Customer Service	Visitors' stars	Other
Hottest Product	✓	✓				✓

Impressive Video Marketing							Video Marketing sheet
Best Business Pitch							Business Pitch sheet
Most Popular & Viral Video							Likes + shares typed in by the committee
People Choice Award							Visitors' likes

3. Stall Competition sheet (awards 1 to 5)

One sheet per stall, five criteria, each 5 jury marks. Visitors rate the same five with 1 to 5 stars. Yellow cells differ in meaning from the system's wording.

Product

Level	**LEED 26 system** Creativity, quality and attractive presentation of the product or service. 5 jury marks	**LEED 2025 competition guideline** Levels 1 to 5 only	**BIT21603 Component B (class)** Product / Service, 4 marks
5	**Highly creative, superior quality, attractive.**	Highly creative, excellent quality, attractive presentation.	Highly creative, superior quality, attractive.
4	**Creative, good quality, neat presentation.**	Creative, good quality, neat presentation.	Creative, good quality, neat presentation.
3	**Adequate quality and presentation.**	Adequate quality, neat presentation.	Adequate quality and presentation.
2	**Poor quality, weak presentation.**	Poor quality, weak presentation.	Poor quality, weak presentation.
1	**Very poor quality, messy.**	Very poor quality, messy presentation.	Very poor quality, messy.
0	**No implementation.**	*Not in this rubric*	No impl.

Price

Level	**LEED 26 system** Competitive pricing grounded in at least 2 competitor benchmarks. 5 jury marks	**LEED 2025 competition guideline** Levels 1 to 5 only	**BIT21603 Component B (class)** Price Strategy, 5 marks
5	**Highly competitive, affordable, 2 or more competitors compared.**	Competitive, affordable, 2 or more competitor comparisons.	Highly competitive, affordable, 2 or more competitors.
4	**Competitive, 1 to 2 competitor comparisons.**	Competitive, 1 to 2 comparisons.	Competitive, 1 to 2 competitor comparisons.
3	**Reasonable, minimal competitor reference.**	Reasonable, minimal competitor reference.	Reasonable, minimal competitor reference.
2	**Overpriced, or no competitors compared.**	No competitor identified, or overpriced.	Overpriced or no competitors.
1	**Inappropriate pricing model.**	Inappropriate pricing.	Inappropriate pricing model.
0	**No implementation.**	*Not in this rubric*	No impl.

Place (Clean and Charming Stall)

Level	LEED 26 system The stall itself: clean, charming and set up for its target customers. 5 jury marks	LEED 2025 competition guideline Levels 1 to 5 only	BIT21603 Component B (class) Place (Targeting), 4 marks
5	**Deep, data-backed audience insight; channel aligned.**	Very clean, organised, clear layout and menu.	Deep data-backed audience insight; channel aligned.
4	**Clear target audience; strong channel rationale.**	Clean, practical layout and menu.	Clear target audience; strong channel rationale.
3	**Target audience identified; standard choice.**	Somewhat clean, partially clear menu.	Target audience identified; standard choice.
2	**Vague audience; mismatched platform.**	Untidy, disorganised.	Vague audience; mismatched platform.
1	**Incorrect or missing audience definition.**	Very messy, no clear layout or menu.	Incorrect or missing audience definition.
0	**No implementation.**	*Not in this rubric*	No impl.

The system and BIT21603 judge who the stall targets; the 2025 competition guideline judges how clean and organised the stall is. See D1.

Promotion (Brilliant Stall Promotions)

Level	LEED 26 system Visual appeal, campaign reach and promotional engagement. 5 jury marks	LEED 2025 competition guideline Levels 1 to 5 only	BIT21603 Component B (class) Promotion, 5 marks
5	**Attractive visuals, high reach and engagement.**	Highly attractive visuals, creative promotions, strong engagement.	Attractive visuals, high reach and engagement.
4	**Attractive visuals and effective campaign.**	Attractive visuals, effective promotions.	Attractive visuals and effective campaign.
3	**Acceptable visuals; predictable campaign.**	Acceptable visuals, predictable promotions.	Acceptable visuals; predictable campaign.
2	**Weak visuals; ineffective campaign.**	Weak visuals, ineffective promotions.	Weak visuals; ineffective campaign.
1	**Poor visuals; no promotional effort.**	Poor visuals, no promotions.	Poor visuals; no promotional effort.
0	**No implementation.**	*Not in this rubric*	No impl.

Customer Service (Superb Customer Service)

Level	LEED 26 system Provisional wording: friendliness, helpfulness and speed of service at the stall. 5 jury marks	LEED 2025 competition guideline Levels 1 to 5 only	BIT21603 Component B (class) Customer Service, 4 marks
5	**Warm, proactive, memorable service for every customer.**	Excellent, prompt, attentive, proper attire, delivery available.	Flawless crisis handling; protects brand.
4	**Friendly and quick; explains the product well.**	Good, timely, proper attire.	Strong, confident interaction with minor flaws.
3	**Polite; answers basic questions.**	Adequate, suitable attire.	Manages issues adequately; prevents escalation.
2	**Slow or unhelpful service.**	Slow, poor, unsuitable attire.	Struggles under pressure; reacts poorly.
1	**Customers ignored or treated rudely.**	Very poor, no delivery.	Escalates dissatisfaction; brand liability.
0	**No implementation.**	*Not in this rubric*	Panics or abandons.

All three differ. The system's wording is a placeholder written for the app. See D2.

What visitors are asked (1 to 5 stars)

Element	Question shown to visitors
Product	How good is what they sell?
Price	Is the price fair for what you get?
Place	Is the stall clean and inviting?
Promotion	How well do they promote and draw you in?
Customer Service	How friendly and helpful were they?

Visitors are already asked about cleanliness for Place, which matches the 2025 guideline rather than the jury's target-market wording.

4. Impressive Video Marketing (award 6)

Jury only, 25 marks. Same as BIT21603 Component D and the 2024 results sheet. Judges see the group's video links on the sheet and give one set of marks for all of them.

Promotional Engagement — 5 marks

Creativity and capacity to motivate consumer action.

Level	What the judge sees	Marks
5	Highly engaging, creative, strongly drives viewer action.	5
4	Engaging content that motivates viewer action.	4
3	Moderate engagement; achieves the basic objective.	3
2	Low engagement; weak call to action.	2
1	Ineffective; fails its engagement purpose.	1
0	No submission.	0

Core Value Points — 5 marks

Clear communication of core selling points (3 or more USPs).

Level	What the judge sees	Marks
5	Exceptional clarity; highlights 3 or more unique selling propositions.	5
4	Clear message highlighting 2 core selling propositions.	4
3	Fair clarity, highlighting 1 core selling proposition.	3
2	Unclear message; minimal value highlights.	2
1	Complete lack of message clarity or selling points.	1
0	No submission.	0

Visual Impact & Branding — 5 marks

Visual aesthetics, graphic quality and brand alignment.

Level	What the judge sees	Marks
5	Superior brand visuals, graphics and aesthetic appeal.	5
4	High-quality visuals that support brand presentation.	4
3	Minimal visual graphics; partial brand support.	3
2	Weak, distracting or unpolished visuals.	2
1	No visual branding elements.	1
0	No submission.	0

Audio Quality & Balance — 5 marks

Clarity, volume balance and soundtrack coordination.

Level	What the judge sees	Marks
5	Crystal clear audio, balanced mix, complements the video.	5
4	Clear, well-balanced audio tracking.	4
3	Adequate audio with minor volume imbalance.	3
2	Poor audio coordination or background noise.	2
1	Unusable audio quality.	1
0	No submission.	0

Editing & Production — 5 marks

Camera stability, scene transitions and production polish.

Level	What the judge sees	Marks
5	Sharp, steady camera work with professional transitions.	5
4	Steady camera work with effective scene transitions.	4
3	Adequate camera focus with basic editing.	3
2	Unsteady footage; weak scene transitions.	2
1	Substandard editing and camera control.	1
0	No submission.	0

5. Best Business Pitch with Innovation Element (award 7)

Jury only, 15 marks. Same as BIT21603 Component C, including UN SDG 8 (Decent Work and Economic Growth), and the 2024 pitch sheet.

Concept & Innovation — 5 marks

Uniqueness of the value proposition, technological integration and original product or service solution.

Level	What the judge sees	Marks
5	Highly unique, trend-aligned, strong tech integration.	5
4	Creative, trend-aligned, with good technology application.	4
3	Adequate concept with a basic tech link.	3
2	Weak concept; minimal tech integration.	2
1	Poor concept; no technological link.	1
0	No submission.	0

Presentation & Demonstration — 5 marks

Engaging pitch narrative, crisp visual quality, clear product demonstration and professional editing.

Level	What the judge sees	Marks
5	Highly engaging narrative, crisp visuals, effective demo.	5
4	Engaging narrative with clear visuals and product demo.	4
3	Adequate visual presentation and basic demo.	3
2	Weak visuals; unclear product demo.	2
1	Poor visual quality; no product demo.	1
0	No submission.	0

Feasibility & SDG 8 Alignment — 5 marks

Realism of the business model, market opportunity, financial viability and explicit UN SDG 8 alignment.

Level	What the judge sees	Marks
5	Robust model; exceptional SDG 8 integration (decent work and economic growth).	5
4	Realistic model with clear SDG 8 relevance and market demand.	4
3	Adequate model with basic SDG 8 and market understanding.	3
2	Weak model; vague market and superficial SDG 8 link.	2
1	Unrealistic model; no market demand or SDG 8 alignment.	1
0	No submission.	0

6. Awards without a rubric (8 and 9)

8. Most Popular & Viral Video Marketing, 1 winner

The committee types each group's likes and shares (and the video link) into Admin, Results. Total = likes + shares; the highest total wins. Matches The Competition. Tip: agree a cut-off time for counting, and screenshot the counts.

9. People Choice Award, 1 winner

Visitors sign in with UTHM and tap "I like it" or "Not for me" on a stall's page, once per person per stall; they can change their mind. Most likes wins; "Not for me" does not subtract. Matches Dr Munie's note and The Competition.

7. Decisions for the committee

#	Question	What the sources and the system say	Suggestion
D1	**Place: cleanliness or target market?**	The system uses the BIT21603 class wording (target audience and channels). The 2025 competition guideline judges the stall itself: clean, organised, clear layout and menu. The award is called Clean and Charming Stall, so the 2025 wording fits the competition better.	**Switch the Place levels to the 2025 wording.**
D2	**Customer Service: in the competition or not?**	Dr Munie: the last stall criterion is for the class only. The Competition: Superb Customer Service award, jury 5 marks. The system has it, with placeholder wording that matches neither source. The 2025 guideline wording (prompt, attentive, proper attire, delivery available) suits judging at a stall; the BIT21603 wording (crisis handling) suits a class report.	**If the award stays: use the 2025 wording. If it goes: remove the award and the criterion, and Outstanding Stall becomes 40 (20 jury + 20 customers) or 20 (jury only).**
D3	**Do customers' stars count?**	Dr Munie: customers only answer like or don't like, for People Choice. The system also asks visitors to rate the five elements with 1 to 5 stars, and those count for half of every stall award. The Competition lists the element awards as jury marks.	**Either keep stars (more voices, harder to game by one judge) or make the element awards jury only and keep visitors to like or not.**
D4	**Marks per criterion**	BIT21603 Component B gives 4, 5, 4, 5, 4 marks (adds to 22 in the screenshot, though its heading says 25). The Competition gives 5 for each element and 10 for Product and Price. The system follows The Competition: 5 each.	**Keep 5 each (matches the award marks).**
D5	**Pitch video length**	The system tells teams 2 to 3 minutes. The 2024 Karnival guide said 3 to 5 minutes, uploaded to YouTube.	**Confirm the 2026 length; it is one line to change.**
D6	**Up to 3 marketing videos**	The system lets a group post up to 3 promo videos and judges give one set of marks. No document you sent states this limit; the 2024 results sheet simply has three link columns.	**Confirm the limit, or remove it.**
D7	**Level 0**	BIT21603 rubrics have level 0 (no implementation or no submission). The 2025 guideline has levels 1 to 5 only. The system allows 0 to 5.	**Keep 0 for "nothing to judge".**
D8	**Judges per stall and timing**	2024 guide: three judges per stall. 2025 guideline: video judging 8 am to 3 pm, stall judging 10 am to 3 pm. The system averages however many judges score a stall, and the programme shows stall judging 12 pm to 5 pm on 9 December.	**Set the allocation to three judges per stall and confirm the judging hours.**

Each decision is a small change in the app (rubric wording, marks or which awards use visitors' stars). Tell me the outcome and I will update the app and the Supabase file.
